FCC MAIL ROOM

Magalie Roman Salas, Secretary  
Office of the Secretary  
Federal Communications Commission  
445 12<sup>th</sup> Street, S.W.; TW-A325  
Washington, D.C. 20554

(MM Docket # 99-118, RM-9549)

Dear Ms. Salas:

Hodson Broadcasting respectfully submits the enclosed Comments for filing in opposition of the Commission's Notice of Proposed Rule Making (DA 99-686) concerning the allotment of FM Channel 291C1 (106.1 MHz) to Logandale, Nevada.

Pursuant to Sections 1.415(a), 1.419(a) and (b), 1.420(e), 1.49(a), and 1.52 of the Commission's Rules, please find enclosed one original, plus four (4) copies of my company's Comments and associated exhibits which pertain to the above-mentioned proceeding. A certificate of service and mailing to the petitioner, pursuant to Sections 1.420 (a) and (c), and Sections 1.47 (d) and (f) of the Commission's Rules, is included at the conclusion of the "comment" section of this submission.

Thanks Magalie, for your attention and concern in this matter.

Very truly yours,

*Richard Dean Hodson*

FCC MAIL ROOM

In the matter of

Amendment of 73.202(b),  
Table of Allotments,  
FM Broadcast Stations  
(Logandale, NV)

MM Docket No. 99-118  
RM-9549

To: Chief, Allocations Branch  
Mass Media Bureau  
Policy and Rules Division

**COMMENTS**

Hodson Broadcasting, a sole proprietorship formed by Richard Dean Hodson (hereafter called "Hodson"), pursuant to Section 1.415(a) of the Commission's Rules, respectfully submits the following "Comments" in opposition to the *Notice of Proposed Rule Making* in the above-captioned proceeding.<sup>1</sup> Hodson is sole party to an allotment for Tecopa, California, that is currently before the Commission.<sup>2</sup>

The *Notice* proposed to amend the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, by allocating FM Channel 291C1 to Logandale, Nevada, as that area's first local aural transmission service, provided the issue of community status is resolved. The Commission adopted the *NPRM* in response to a Petition for Rule Making submitted from Mountain West Broadcasting (hereafter called "West") on March 1, 1999 and received at the Commission on March 3, 1999.

After examining the Commission's *NPRM*, Hodson was compelled to file

---

<sup>1</sup>The *Notice* was released April 9, 1999 (*DA 99-686*). The *NPRM* specified "interested parties may file comments on or before June 1, 1999, and reply comments on or before June 16, 1999". Thus, the instant comments are timely filed.

<sup>2</sup>MM Docket No. 99-46, RM-9470.

comments which oppose this addition to the FM Table of Allotments on several grounds. First and foremost, Hodson will show that West failed to meet their needed minimum distance requirements, pursuant to Section 73.207 of the Commission's Rules. Furthermore, Hodson will demonstrate that any Class of FM, allocated to the Logandale area as a claimed "community", on Channel 291 (106.1 MHz), would not only be not in the public interest, convenience, or necessity, but would also not be a fair and equitable distribution of the FM broadcast spectrum, as prescribed by Section 307(b) of the Communications Act of 1934.

According to West's *Petition*<sup>3</sup>, Figure 1 shows Hodson's proposed Tecopa allocation to be at a claimed distance of 198.9 actual kilometers, with a needed separation claimed at 196 kilometers. The true facts, under careful scrutiny, reveal that minimum distance separation, pursuant to Section 73.207 of the Commission's Rules, require 200 kilometers (124 miles) between a Class A and Class C1 FM, when co-channel. Utilizing Section 73.208 (a)(1) of the Commission's Rules, Exhibit A shows that from the Commission's own Distance and Azimuth website service, that the distance between Hodson's confirmed transmitter site with coordinates 35° 47' 08" North, 116° 08' 41" West, and the Commission's listed coordinates within the Logandale consideration of 36° 47' 25" North, 114° 19' 21" West, is several kilometers short of the Commission's separation standard. Exhibit B shows even a larger disparity of distance, implementing Hodson's identical and verifiable transmitter coordinates, via several page extractions from the Massachusetts Institute of Technology's broadcast database. This pertinent printout shows that MIT's distance separation calculation from Hodson's site to Logandale is tabulated at 109.97 miles (176.98 kilometers), a difference of 21.92 kilometers (13.62 miles) from West's MAPFM search database information provided in his *Petition*.

Even if the Commission allocated a lower class FM to service the "Logandale" area which meets required distance criteria, utilizing Channel 291 for this purpose would produce prejudice and bias toward Hodson. Hodson is the classic example of

---

<sup>3</sup>FCC Proceeding # RM-9549.

a small business broadcasting venture - one station, one signal, one owner, with NO further broadcast interests.<sup>4</sup> Hodson has solid plans to develop a “mom & pop” broadcasting venture in Tecopa, featuring consecutive, full-time licensee operation and involvement of the radio facility, plus ten percent of total on-air time devoted to local Christian programming and Sunday fellowship services. West, in contrast, is not a symbol of media diversity. According to an April 15, 1999, FCC ECFS Comment Search from the Commission’s Internet website ([www.fcc.gov](http://www.fcc.gov)), West could easily be defined as an “Allotment Assembly Line”, with over 120 Petitions before the Commission to amend the FM Table since December 22, 1998.<sup>5</sup> Of note within these rule makings is RM-9504, West’s request that the Commission alter the FM Table to accommodate a Class C1 allocation on Channel 295 (106.9 MHz) at the “community” of Overton, Nevada, only *five miles* distant from this Logandale consideration.<sup>6</sup> Why does West strive for **two** Class C1 FM signals within such a short distance of each other? Furthermore, an unprotected Class D translator, which rebroadcasts KILA - Las Vegas, the flagship station for the Sounds of the Spirit (SOS) Christian Radio Network, licensed to Logandale<sup>7</sup>, operates at first channel adjacent (106.3 MHz-Channel 292) and could easily be subjected to interference at only 200 kHz between carriers, which is clearly not beneficial to local listener’s interests and might easily inconvenience the general public’s radio reception of this particular translator service within this signal’s coverage area. As a further sidenote, West’s principle, Victor A. Michael, Jr., is also principle to West Wind Broadcasting, proponents of 11 more FM Table Allotments currently before the Commission<sup>8</sup>, which brings his total to at least 133, considering recent West and/or West Wind rule making submissions contained

<sup>8</sup>Exhibit G-attached

in the Commission's Daily Business Files online over the past few weeks have not been factored into this massive petition equation.

After reviewing the exhibits attached, various conclusions can be determined. Hodson avers this entire Logandale proposal by West is just another common, routine filing for an allocation "machine" company - make that two companies that are actually one, due to their common president, which has only general interest in its proposals, with no knowledge of the specific issues relating to the "communities" in which they intend to serve. To be fair and equitable, Hodson does not contest any of the other 121 of West-only allocation petitions before the Commission, which includes the Overton, Nevada proposal, but must adamantly oppose this particular co-channel Table amendment to prevent any likelihood of stagnating Hodson's projected signal migration plans, via booster, in an easternly pattern toward other service areas and immediate intentions to upgrade Tecopa's allocation to a Class B1 status to overcome rugged terrain within the region and shorter tower considerations than originally anticipated.

Based on the foregoing, Hodson prayerfully requests that these comments would influence the Commission to reconsider its *NPRM* and not amend the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, to include any new allotments on Channel 291, regardless of Class, for the area in, around, or near Logandale, Nevada.

Respectfully submitted,

Richard Dean Hodson, d/b/a/
